Bangor Development Center

Target Technology Center

Project Location

Orono, Maine

Delivery Method

Design-Build

Designer

Sheridan Construction

Project Size

20,000 sf

The Bangor Area Development Corporation partnered with Sheridan Construction to design and build an information and technology incubator facility, located at the Maine Technology Park, in Orono.

This new 20,000-square-foot facility houses companies using state-of-the-art computer and telecommunications equipment.

Sheridan was responsible for self-performing the Engineering, foundational work, MRST frame, installation of the MR-24 roofing system, as well as the application of siding.

Building on our promise.
