Thomas College

Hinman Hall

Project Location

Waterville, Maine

Delivery Method

Construction Manager

Designer

JSA Architects

Project Size

32,500 sf

Sheridan Construction partnered with JSA Architects to bring Hinman Hall to the campus of Thomas College in Waterville, ME. This Project features a three-story dormitory designed to house 180 students organized into two, 27-bed “pods” per floor.

This 32,500 square foot structure includes a full kitchen, laundry facilities, and lounges on each of its three floor with the largest common area on the ground level. All student rooms are located on the second and third floors.

Sheridan self-performed concrete work, and steel erection during winter months, staying on schedule for student occupancy to start the 2014 school year.

Building on our promise.
