

**Sheridan
Construction**

University of Southern Maine

Costello Sports Complex

Project Location

Gorham, Maine

Delivery Method

General Contractor

Designer

Harriman Associates

Project Size

83,000 sf

Designed as an extension to the already existing Gymnasium, the Costello Sports Complex is a 63,000-square-foot field house featuring a 6 lane, 200-meter indoor track fit to NCAA specifications, pole vaulting, and long jump pits, as well as 3 tennis courts on the infield of the track. This project also features additional locker rooms, support facilities, and athletic office space.

Since completing construction, the University of Southern Maine has added numerous conference championships in track and field to their trophy case.

Building on our promise.
