F.W. Webb

Warehouse Addition

Project Location

South Portland & Augusta, Maine

Delivery Method

Design-Build

Designer

Sheridan Construction

Size

66,800 sf

Sheridan Construction worked with Butler Manufacturing™, to design and construct new 66,800 square foot building in South for F.W. Webb in Portland, Maine.

This new multipurpose building features warehouse space, loading docks, a new retail showroom, as well as additional administrative officespace.

Two years after completing the South Portland facility, Sheridan and Butler were also selected to construct their new Augusta facility.

Building on our promise.
