

**Sheridan
Construction**

Foxcroft Academy

Jim Robinson Field House

Project Location

Foxcroft, Maine

Delivery Method

Construction Manager

Designer

Sheridan Construction

Size

80,000 sf

Sheridan Construction acted as the Construction Manager for the construction of the new Jim Robinson Field House.

The 80,000 square foot field house features a high-performance turf field, exterior track, and jump pit. Additionally, a second level mezzanine was designed for spectators.

This project also included the use of translucent panels on the north and south facades, to allow natural light into the facility.

Building on our promise.
